

PRODUCT POSITIONING

Bringing the precision of a climbing shoe to high-end ice and mixed climbing, the Ribelle® Ice dispenses with the weight of a traditional boot/crampon combo and features a super-rigid carbon fiber sole, BOA® Fit System closure and our Sock-Fit-™ Plus construction for a snug, super-sensitive fit. The Ribelle® Ice comes with an exterior elastic gaiter for extra protection and insulation.

71095/000

FEATURES AND BENEFITS

- 01** **Sock-Fit Plus:** creates a snug and precise fit
- 02** **BOA® Fit System:** This system delivers micro-adjustable precision fit engineered to perform in the toughest conditions and is glove-friendly.
- 03** **Insole:** Full carbon fiber sole with rubber rear coverage
- 04** **Over-Gaiter:** New external over-gaiter adds warmth, protection and insulation
- 05** **Crampon Compatible:** Compatible with most bolt-on crampons (not included)

SPECIFICATIONS

Upper:	Microtech RE water-resistant + WinTherm®
Gaiter:	Lycra + TPU
Lining:	Primaloft® Micropile + Polartec® Windbloc
Insole:	Carbon Fiber
Outsole:	SCARPA Heel Hook
Last:	Al
Size	38-46 (whole sizes)
Weight:	465g; 16.4oz (½ pair size 42)
Origin:	Italy

TECHNOLOGIES

BOA®

POLARTEC®

SOCK-FIT SYSTEM

TECHNOLOGY - MATERIALS - CONSTRUCTION

WinTherm® – WinTherm is a thermoregulatory membrane that keeps body temperature balanced, guaranteeing excellent breathability and insulating feet from the cold and heat thanks to the two combined technologies: insulation and reflectivity.

BOA® Fit System - Patented Boa® Fit System consists of three integral parts: a micro-adjustable dial, super-strong lightweight laces, and low friction lace guides. Each unique configuration is engineered for effortless precision delivering a connected, fast, customized, and durable fit, and is backed by The Boa® Guarantee.

Primaloft® – Primaloft® is a reference point for all performance of all synthetic thermal insulation. It sets the standards of comfort in any situation and provides footwear the needed warmth without increasing the volume, lightweight and soft, water-resistant and elevated compressibility.

Polartec® Windbloc® - Polartec® Windbloc® provides maximum weather protection from wind, water, and cold conditions. It features a unique stretch polyurethane membrane sandwiched between the outer face fabric and inner lining fabric, creating a combination that holds strong against the harshest elements, while still allowing moisture vapor to permeate outside. Windbloc's membrane blocks outside moisture and airflow at the microscopic level to guarantee weather protection. This durable membrane is capable of resilient stretch for greater range of motion during activity, even in inclement conditions.

SOCK-FITPLUS BY SCARPA

Sock-Fit XT Plus – Tongue, Flex-Point and integrated gaiter are constructed in a single piece of elastic S-Tech Shoeller breathable and water-resistant fabric.
